- **Databases:** MongoDB, SQL
- **Web Technologies:** React.js, Next.js, Magento
- **Backend Technologies:** Magento, NestJS, Express.js
- **Mobile Technologies:** React Native
- **Certificates:** .NET Core Certificate, React Native Certificate

Professional Experience

Junior Full-Stack Developer

Jan 2025 – Present

Wamia, Tunisia

- Collaborated with a team to develop full-stack applications using ReactJS and Magento.
- Contributed to building and maintaining a custom Seller Dashboard in React, integrated with Magento 2 backend on wamia.tn, enhancing vendor management and user experience.
- Helped keep the live platform running reliably—ensuring performance, uptime, and seamless operations.

Full-Time Software Instructor

Sep 2024 – Dec 2024

GOMYCODE, Sousse, Tunisia

- Mentored students through hands-on, project-based learning.
- Taught web technologies including Next.js, React.js, Express.js, and cloud computing.

Full-Stack Web and Mobile Development Intern

Feb 2024 – Jun 2024

DunDill, Sousse, Tunisia

- Built a SaaS platform for insurance companies to manage medical plans.
- Integrated a secure purchasing system with Stripe.
- Developed a mobile app for medical appointments and prescription tracking.
- Created dashboards for multiple stakeholders.
